

# BLACK GOLD PUMP & SUPPLY, INC.

## FLOW CONTROL

Quality valves and controls for the  
Oil and Gas industry worldwide

### Black Gold Flow Control

#### Extensive inventory to meet all needs.

We carry a large inventory of Kimray and Fisher flow control and metering equipment to meet a wide range of needs.

Flow control product are offered

- Comprehensive inventory to cover all your flow control and metering requirements under one roof
- Staff trained to assist our clients in finding the exact replacement part of piece of flow control equipment. Experience enables us to match your requirement even you do not have the complete specification of some pieces of equipment
- Inventory for wide range of needs in North America and markets worldwide
- Remanufactured parts built to specific requirements
- If we don't have the part in our inventory we will have it made

#### Flow control for all applications.

Our flow control equipment is for controlling the following equipment:

- **Compressors**  
Low suction and high recirculation pressure
- **Scrubber**  
Liquid level controller and dump valve
- **Line Heater**  
Inlet flow, burner control, high temperature shut-in, pilot flame monitor shut-in, and low liquid level shut-in
- **Production Unit**  
Inlet flow, pressure, liquid levels, heater controls and fuel gas
- **Level Control**  
Mechanical float trunnion, treater valve, simple float operated pilot, adjustable operated float pilot, electric level switch, and high and low pressure floatless pilots
- **Dehydrator**  
Liquid levels, reboiler temperatures, fuel gas, instrument gas, glycol circulation and vessel pressures
- **Heater / Treater**  
Vessel pressure, liquid levels and liquid temperatures
- **Separator & Free Water Knockout**  
Vessel pressure and liquid levels

### Kimray

Kimray flow control and metering equipment is offered to meet our oil and gas industry clients' needs throughout the worldwide oil and gas field locations.

### Fisher®

Fisher® brand regulators offers pressure and flow control solutions in Process, Natural Gas and LP Gas Industries.
